

On Friday, July 30 2004, the Conception Bay South Fire Department responded to this MVA on the CBS Bypass Road near Manuels. Upon arrival, responding members found the two vehicles, one a Chev Astro Van and the other a Mini Bus, had collided head on. Firefighters had to use hydraulics (Jaws of Life) to extricate the lone occupant of the Mini-Bus. The drivers of both vehicles were transported to hospital via ambulance to be treated for their injuries. A dog who was riding in the Chev Astro Van was also treated but later died from his injuries.
